Counsel,

Forensic collections from Plaintiff Dymand McNeal's devices reflect the use of a number of applications/accounts that likely contain information responsive to Defendants' document requests, but that do not appear to be included in existing productions. Those applications/accounts are listed below. As you may be aware, Judge Kuhl ordered production from additional applications/accounts at the March 19, 2025, Case Management Conference, and we believe productions from the applications/accounts identified are appropriate and consistent with Plaintiff's discovery obligations in this case.

Please let us know as soon as possible if you are willing to review and produce materials from these applications/accounts, or when you are available for a meet and confer.

Best,

**Plaintiff's Applications/Accounts**
